Mr Dimity states that there are no entries in the Treasurers Silver Bullion Register or elsewhere of the deposites 149, 153. 156, 158. 159, 160, 161, 162 & 163, united upon the extract from the weighing book copied on the opposite side, from the general entry in the Silver Bullion Register copied as above, wherein said nine deposites are claped in aggregate under the head of J. A. Garcia & others the assayers report of these nine deposites is annexed for elucidation - On mint certificate was issued in Garcia's name - those that depositors asked, being three or four, consented as to the mint certificate to this arrangement - the balance were not asked to consent, but found no fault with the payments, which were made to them separately. But there are no separate entries of such separate paiments on the books of the Mint. It's pretty sure they were not all paid on the same day.* July 1. 1839.
